

Anthony's Wish

2016 To have a Track Chair!

Anthony is a fourteen year old boy who suffers from Duchenne muscular dystrophy. He's used a wheelchair since he was nine-years-old, which has proven difficult – his family lives on a 120 acre sheep farm in Green Valley, near Alexandria in Eastern Ontario.

When we met would Anthony he knew what his number 1 wish choice was a track chair.

On July 24, 2016 at the Playing It Forward for Wishes event hosted at the Metcalfe Golf and Country Club Anthony's wish came true!

We announced to Anthony that he would get his wish, Lowell from the Track Chair Company rode out on the custom made wheelchair "Track Chair". Anthony was quickly transferred into the chair, and while he had few words, his smile stretched from ear to ear.

"I can go anywhere," he said, sitting in the new chair.

There are a number of places on the family farm that Anthony couldn't go before. It's hard for his regular wheelchair to get to the barn, and when his two brothers and father go out in the bush, Anthony couldn't go.

Now he can go in the snow with it, he can go on the beach, and he can go off-roading. He now has regained his freedom!

Anthony and his family had a magical day and they are extremely grateful for the surprise and the generosity!

A very special thank you to
